4 SIMULATED TRADING ACCOUNT

- 4.1 A "Simulated Trading Account" or "STA" is intended to help You develop Your trading skills and confidence. The STA You may receive is a sub-account of Our primary account with the Direct Access Broker. Your use of the STA is subject to the terms of this Agreement and the Direct Access Broker's T&Cs, both of which may be amended from time to time. Once updated, You must follow the updated wording. The SmartCharts Simulated Trading Account (STA) is a demo account and does not involve real capital; any profits or losses are simulated and may not reflect real trading outcomes. Differences between demo and live trading, such as execution speed, pricing, and liquidity, can significantly impact results. Past performance is not indicative of future results. Demo trading may create false expectations due to the absence of real financial risk. If you transition to live trading, you could lose more than your initial investment. Seek professional financial advice before trading with real funds.

4.2 STA OPERATING RULES

- 4.2.1 The STA is limited to one account per individual, and you must provide a valid e-mail address and mobile telephone number for account verification purposes.
- 4.2.2 You must trade our Strategies and apply our trading risk management disciplines.
- 4.2.3 You must comply with the [Direct Access Broker's T&Cs](#) at all times, subject to such revisions as may be imposed by the Direct Access Broker from time to time. You must additionally comply with the terms of this Agreement, subject to such revisions as we may make from time to time.
- 4.2.4 Your eligibility for profit payments at clause 4.3 is dependent on Your ongoing compliance with this clause 4.
- 4.2.5 The account will operate on a demo server and is available during the 30-day free access period to Smart Charts Software. At the end of the free access period to maintain access to your STA you will need to purchase an ongoing subscription to Smart Chart Charts Software priced at US\$89.00 per month.
- 4.2.6 Your STA will operate with a leverage of 25:1.
- 4.2.7 You will place at risk no more than 2% of Your STA balance on any one trade
- 4.2.8 You must not have more than two (2) trades on the same currency pair, commodity stock or index in the same direction.
- 4.2.9 We may deem an activity as "Scalping" if an Order or Trade on Your STA has any of the below characteristics. These apply to any financial instrument traded via Your STA:
- (a) The Trade is opened and closed within three (3) minutes (i.e., the order for the closing trade follows the order for the open trade in three (3) minutes or less).
 - (b) An opposing trade is placed within three (3) minutes of another trade being opened thus creating a fully or partially hedged position (also known as a 'locked position'); or
 - (c) The Order for opening or closing the trade is placed on a latent price.
- 4.2.10 We do not allow Scalping. Scalping is a breach of the Direct Access Broker T&Cs and of this Agreement. If, acting reasonably, we determine that you have engaged in Scalping on your STA then we may (without detracting from our other legal rights or remedies):
- (a) Immediately terminate Your STA account.
 - (b) Void any trade (i.e., treat the trade as if it had never taken place) which was part of Scalping activity.
 - (c) Close any trade on the basis of our then and current process which was part of any Scalping activity; and/or
 - (d) Amend any trade on your behalf, so that it operates as it would have, as if the order was executed in the absence of Scalping.
- 4.2.11 We can exercise the above rights even if You have entered into (or refrained from entering into) arrangements with third parties relating to the relevant trade and even if You may suffer a trading loss as a result.

Examples of such manipulation include entering opposite positions simultaneously.
- 4.2.15 You are prohibited from engaging, either alone or in cooperation with others, in any trades or combination of trades across connected accounts or accounts held with MT4 or Smart charts if the purpose of such trades is to manipulate trading. - 4.2.16 You must not execute trades on your STA using an external or slow data feed.

 - (b) Opening positions with numbers that are noticeably smaller or larger than those of Your other trades.
- 4.2.19 You must avoid any activities using your STA that may cause financial or other harm to the Direct Access Broker, such as over leveraging, overexposing, making one sided bets or account rolling.
- 4.2.20 If You breach any operating rule or instruction, Your STA will be automatically suspended and reviewed by the Risk manager. If the Risk manager is satisfied that You are able to continue, Your STA will be reactivated subject to the sole discretion of the Risk Manager (acting reasonably) based on their review.
- 4.2.21 You are prohibited from topping up Your STA using Your own funds because this is a demo trading account.
- 4.2.22 You acknowledge that funds cannot be withdrawn from the STA, nor can it be closed by You.
- 4.2.23 We reserve the right to access Your STA at any time, in order to perform risk management due diligence on Your activities.
- 4.2.24 You agree to reimburse Us in full respect for all losses and expenses we incur as a direct consequence of You breaching this Agreement. Our liability for losses and expenses is set out in clause 9.11 of these terms and conditions.

4.3 **PROFIT SHARING**

- 4.3.1 Subject to Your compliance with this clause 4 and the Direct Access Broker's T&Cs, if the STA's balance is above the opening balance at the end of the Thirty (30) Day Smart Charts Software Access Period You will be eligible to receive up to the equivalent of 60% of that Simulated Net Profit (Your "Profit Share") above the Account Opening Balance.
